

REFUELER

INVESTOR BRIEFING · CONFIDENTIAL

Visual Chronograph Intelligence for the Open Road

The first "Drive-to-Earn" ecosystem for the Connected Car era.

CARPLAY NATIVE

APPLE WATCH ULTRA

LIGHTNING V4V

UK LAUNCH · 2025

Drivers overpay. Every single fill-up.

£2.50

Average overspend per fill-up · UK national data

FUEL-PRICE VOLATILITY

Drivers overpay by an average of £2.50 per fill-up due to opaque regional pricing and zero real-time intelligence at point of decision.

NO V4V MASS MECHANISM

The Value-for-Value (V4V) Bitcoin economy lacks a passive, high-frequency "earning" layer. Existing Bitcoin UX demands active friction.

FLAT LOYALTY ECOSYSTEMS

Legacy fuel apps are transactional and prestige-free. Zero skeuomorphic delight, zero emotional engagement, zero premium positioning.

A 360° Utility Ecosystem.

A seamless intelligence layer connecting CarPlay, WatchOS, and Mobile into a single revenue-generating loop.

CARPLAY

Dashboard-native price alerts. "Cheaper station in 0.4 miles" nudges routed directly to the instrument cluster. Real-time diversion engine.

REAL-TIME PRICE SENTIMENT

"NUDGE" DIVERSION ENGINE

APPLE WATCH

Luxury "Complication" dial with skeuomorphic chronograph UI. Green/Red sentiment arc. Satoshi sub-dial. Brushed-steel bezel in Resident Mode.

LDK LIGHTNING WALLET

IPHONE

Full savings ledger, loyalty integration (Nectar/Clubcard), Lightning wallet balance, and bank auto-verify via Plaid / TrueLayer.

CLOSED-LOOP LOYALTY

BANK AUTO-VERIFY

The Triple-Win Alliance.

Three category-defining partners · One closed-loop commercial ecosystem.

5M+

ACTIVE TRAVELLERS

ROADTRIPPERS · THE AUDIENCE

REFUEL becomes the "UK Local Expert" overlay within the roadtrippers journey — delivering fuel intelligence at the moment of highest intent. Tap into a pre-qualified, high-LTV travel audience with zero CAC at point of discovery.

LDK

LIGHTNING DEV KIT

FOUNTAIN · THE ECONOMY

LDK-powered infrastructure enables real-time Satoshi "splits" — fuel savings streamed directly to podcast creators and artists at point-of-fill. Fountain provides the LSP (Lightning Service Provider) rails at zero in-house plumbing overhead.

\$500B

US CONVENIENCE MKT

DUFFEL · THE GATEWAY

Car-hire API integration gives REFUEL instant distribution across inbound US travellers — the highest-value, least price-anchored fuel buyer in the market. The "Duffel Bridge" is our Phase 2 Transatlantic expansion lever.

500 Miles to Financial Freedom.

Scenario: London → Scottish Highlands · 500 miles round-trip · Petrol vehicle

⚡ The V4V Impact

At journey's end, the driver has covered 10+ hours of long-form podcast streaming via Lightning "splits" at zero out-of-pocket cost. Fuel savings fund creative content in real-time — closing the loop between the connected car and the V4V economy.

The Nudge Economy.

A two-layer reward architecture that meets users where they are — and migrates them toward open-standard value.

FIAT FOUNDATION

Mass-Market Engagement Layer

- Fuel cashback credited to bank via Plaid/TrueLayer
- Nectar & Club card "Closed-Loop" supermarket vouchers
- Station perks — coffee, meal deals, car wash credits
- Price-sentiment nudges driving incremental diversion savings

The Nudge

BITCOIN NUDGE

Open-Standard Value Migration

- Satoshis earned passively — no wallet complexity at onboarding
- Higher relative value per fill-up vs flat cashback equivalents
- Global portability — Sats travel with the user, always
- Fountain V4V "splits" — sats stream to podcasters in real-time

The Revenue Engine.

Per-transaction P&L on a standard 50-litre fill-up — affiliate commission model.

£2.50

GROSS REVENUE / FILL-UP

£1.50

NET PLATFORM PROFIT

60%

PLATFORM GROSS MARGIN

REVENUE SPLIT — £2.50 GROSS PER TRANSACTION

At 100K monthly active fill-ups → £150K monthly net margin · £1.8M ARR base case

The Tech Stack.

Institutional-grade infrastructure. Zero in-house "plumbing" overhead. 100% self-custodial.

LAYER 4 · INTERFACE

CarPlay / WatchOS / iOS

Skeuomorphic "Chronograph Intelligence" UI. Custom Apple Watch Complication — "Complicated" dial inspired by Patek Philippe & Longines. CarPlay instrument-cluster integration.

LAYER 3 · INTELLIGENCE

Price Sentiment Engine

Real-time fuel price API aggregation. Geofenced "diversion nudge" algorithm. Green/Red arc rendering — directional price sentiment glanceable at 70mph.

LAYER 2 · ECONOMY

Fountain LDK · Lightning Dev Kit

LSP (Lightning Service Provider) rails via Fountain. Satoshi "splits" — automated micro-payments to creators at point-of-fill. BOLT11 invoice generation, zero self-custody overhead for users.

LAYER 1 · RAILS

Plaid / TrueLayer · Duffel API

Open-banking receipt verification (no manual scanning). Duffel car-hire API for traveler distribution. GDPR-compliant, FCA-aligned data architecture.

Transatlantic Scale.

A three-phase commercial roadmap terminating at acquisition by a Global Energy Retailer or Travel Tech Giant.

PHASE 1

UK Supermarket Pilot

MONTHS 1-12

Sainsbury's Nectar & Morrisons More Card closed-loop integration. Target: 50K MAU. Validate affiliate margin at £1.50 net per diversion.

£45B UK Fuel Retail

PHASE 2

The Duffel Bridge

MONTHS 12-24

US inbound traveler distribution via Duffel car-hire API. REFUEL pre-installed in rental car onboarding flow. Target: 500K cumulative users.

\$120B US Car Rental

PHASE 3

USA National

YEAR 3+

Convenience retail network: Wawa, 7-Eleven, Casey's. Integration into the \$500B US convenience market as the intelligence layer for in-car commerce.

\$500B Convenience Mkt

REFUELER

THE VISION · THE ASK

Don't Just Drive. REFUEL.

To become the universal operating system for in-car commerce
and the circular Bitcoin economy.

£750K
